Bekafor® Classic

Bekafor Classic is a rigid panel fence system that protects house and garden in a classic way.

BETAFENCE 10 YEAR GUARANTEE

Benefits

High longevity
This system offers certified quality and lifetime, as the panels are made of galvanised steel wire, plastic coated afterwards with high adhesion.
Easy installation
The complete system of several panel heights and convenient posts, collars, accessories (floor plates, corner clips and wall fixators) and gates offer a solution for all situations. This system can even be installed on a wall or concrete floor.

Classic design
Blending into the garden, Bekafor Classic provides peace of mind combined with classic design. The high rigidity of this residential fence helps you to border your garden in a durable way and its design makes it very discreet. The panels have vertical barbs at one side that can be placed at the top for a more protective fence. The panels can be completed with an infill to enchance privacy (Bekafor Collfort and Bekafor Screeno Line PVC).

Functionalities

PRIVACY INFILL COMPATIBLE | DESIGN | DEMARCATION

Security level
*(when compared to other **residential and medium security panel** options)*

4

Post and fixing systems
(post shape illustrated below)

Bekaclip®
Metal posts **Ø48mm or 60mm**, with fixing strip for easy panels installation maintained with polyamide collets. If your panels are filled with privacy slats, we recommend to use Ø60mm section.

Bekafix®
Metal posts dimension **70 x 44mm**, H-shape with hook plastic cap. Panels are attached to the side of the posts using polyamide or a metal fixator.

Ideal system when your panels are filled with privacy slats.

Izifix®
Metal posts dimension **75 x 50mm**, H-shape with plastic cap. Panels are held to integrated hooks placed down the length of the post. No accessories or fixation needed.

- *For more information on the above posts, please refer to the relevent product page or flyer*

Gates

The Bekafor Classic system can be easily combined with the single Egidia Bekafor Classic swing gate.

Options

Several accessories are available for:

- Fixing a panel directly to a wall (wall fixators)
- Installing posts on a concrete floor or wall (base plates)
- Installing panels in an angle (corner clips)

Panels

The panels have a width of 2000mm and are available in a range of heights from 630 to 2030mm. The panels have vertical barbs of 30 mm that can be placed at the top or at the bottom (place the barbs at the top for panelheights ≥ 1530mm). The horizontal curves give the panels extra rigidity.

- Mesh size:100 x 50mm
- Horizontal wire diameter: 4.5mm
- Vertical wire diameter: 4mm

Coating technique

Panels are made of pre-galvanised wire (minimum 30g/m²) and polyester top layer with a minimum a layer thickness of 100 microns. The PES coating thickness is the average of 10 measurements.

Infills

Infills available to create privacy:

- Collfort: wooden slats
- Screeno Line: PVC or composite slats

Colours

Green RAL 6005, Anthracite BF 7016 M and Anthracite RAL 7016.

Bekafor® Classic range				
Fence height (mm)	Size Panels width x height (mm)	Length of post to be put in concrete (mm)	Length of post to be put on base plate (mm)	Bekaclip posts (number of collars per post)
630	2000 x 630	1100	700	2
